

# Johnson Controls Indonesia Factsheet

## Johnson Controls

At Johnson Controls, we transform the environments where people live, work, learn and play. As the global leader in smart, healthy and sustainable buildings, our mission is to reimagine the performance of buildings to serve people, places and the planet. With a history of more than 135 years of innovation, Johnson Controls delivers the blueprint of the future for industries such as healthcare, schools, data centers, airports, stadiums, manufacturing and beyond through its comprehensive digital offering OpenBlue. With a global team of 100,000 experts in more than 150 countries, Johnson Controls offers the world's largest portfolio of building technology, software as well as service solutions with some of the most trusted names in the industry.

Johnson Controls is well positioned to enable smarter, safer and greener buildings for different uses such as hospitals, airports, schools, shopping malls, hotels and smart homes. Many landmark buildings in Asia Pacific are using Johnson Controls' solutions and smart technologies. Bringing our expertise to specialized markets such as healthcare, data centers and transportation is a key growth strategy for us in the region and globally.

## Johnson Controls in Indonesia

Johnson Controls Indonesia has over 100 employees in two offices across the country.

Our controls, fire protection, HVAC and security products, as well as solutions are installed in about 50% of commercial buildings in Indonesia. We are the only authorized service provider of YORK chiller equipment in Indonesia, supported by our regional and factory specialists and engineering.

Sustainability is at the heart of our business and fundamental to everything that we do. We provide customers guaranteed outcomes to achieve emission reduction commitments that ultimately lead to healthier buildings, people, places and the planet.
