Welcome to HVAC Navigator... You've come to the right place.

HVAC Navigator is your single sign-on, one stop for everything HVACR. As leaders in the industry, we can offer you cutting-edge tools, allowing you to get the job done.

Part Navigator is a powerful solution which enables you to access service parts information (searchable by model, serial number or by attribute) timely and accurately. Parts Navigator provides parts list and interactive exploded drawings of the equipment to enable users to quickly identify the part they need.

With HVAC Navigator, you'll receive product family icon navigation, top level assembly (serial number) and hot-spotting illustrations and enhanced search capabilities. Download your cart and order your parts ALL through the same site.

Visit HVACNavigator.com today!

HVAC Navigator is mobile-friendly...so you can use your tablet on the road and find the parts you need.

Condenser Fan Variable Speed Drives for YVAA Air-Cooled Chillers

Reduce energy consumption and fan noise of your YVAA air-cooled chiller by adding Variable Speed Drives (VSD) for condenser fans.

YVAA air-cooled chillers deliver excellent performance and value using advanced heat exchangers, variable speed compressors and smart controls.

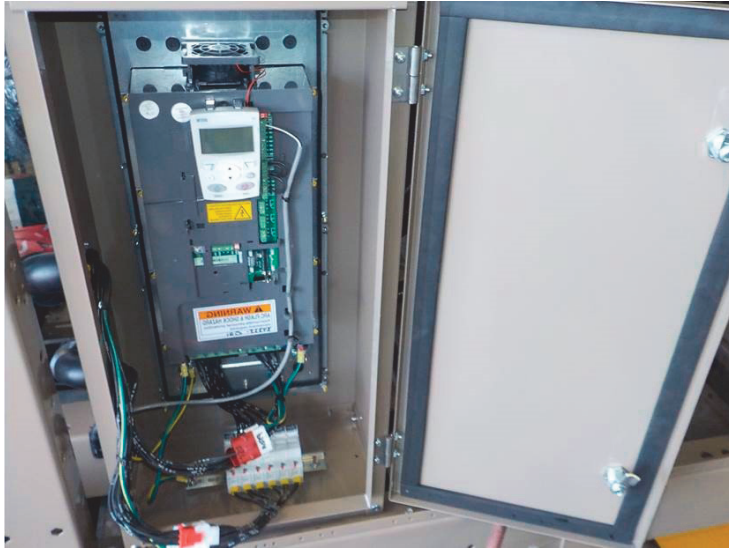

The YORK VSD provides a plug and play, highly energy-efficient and cost-effective system that will take your YVAA air-cooled chiller to a whole new level of system efficiency.

Features and benefits:

- Reduce energy consumption, 20-30%
- Typical Payback, less than 3 years
- Lower fan noise, 5-8 dBA
- Easy-to-install, typically 1 day
- Applicable to existing YVAA 150-500 ton chillers
- Improved low ambient control
- Extended life of components

Compressor Acoustic Sound Blankets for YLAA Air-Cooled Chillers

Reduce chiller noise of your YLAA air-cooled chiller by adding YORK Compressor Acoustic Sound Blankets.

Each compressor of the YLAA chiller is individually enclosed by an acoustic sound blanket. The sound blankets are made with one layer of acoustical absorbant textile fiber.

If your chiller does not have the YORK Acoustic Sound Blankets, you can now be easily installed on site with minimal effort

Features and benefits:

- Reduces chiller noise by 20%
- Easy install with minimal effort
- Removable and reusable
- Closed insulation system

Genuine Parts

YORK Chiller Preventive Maintenance Kits

Preventive Maintenance Kits for the most popular chiller models provide what you need for annual servicing in one easy-to-order package.

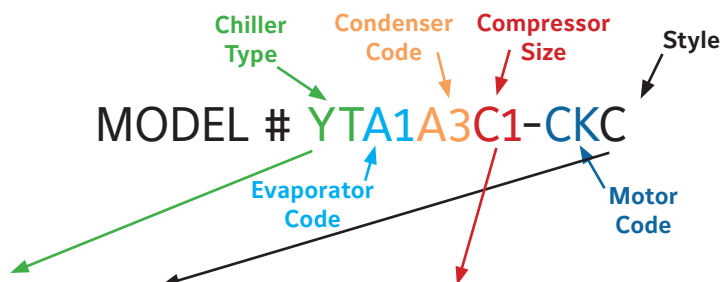

For each chiller maintained, you'll need the following:

1. Preventative Maintenance Parts Kit
2. YORK® PureOil™
3. Inhibitor (coolant)

You'll find the part numbers in the tables that follow, by chiller series and style.

You will also need evaporator and condenser head gasket material. It comes in two types, channel or bulb, and both types come in 25-foot and 50-foot rolls. Each machine needs a different length. Verify the length needed in the unit's parts book or provide the unit's model and serial number to the customer service representative when you call.

QUICK GUIDE TO NOMENCLATURE

Example: **YT Series** **Style C & D** with **size B** and **C compressors** using R11 and R123 refrigerant.

PART #	DESCRIPTION	WHAT YOU NEED TO ORDER	MLP \$
028 03242 025	25' BULB TYPE	HOW MANY PASSES IN THE EVAPORATOR OR CONDENSER?	192.00
